### "BULBS THAT BLOOM"

### Wholesale and Retail Price List for Winter and Spring

# 1932

#### PLEASE READ CAREFULLY

All stock is offered and orders accepted subject to prior sale or advance in price in which event money will be refunded.

Reference: First National Bank of Attleboro, Mass.

I exercise the greatest care possible to have every variety true to name, yet mistakes may occur, in which case upon notification I will replace free of charge or refund price paid on any bulbs that prove untrue to name.

Terms: Cash or equivalent with order. If desired 25% with order, balance before shipment or C. O. D. for Spring delivery.

All stock is graded standard sizes: 1st size is 1 1-2 inch and up, 2nd size is 1 1-4 to 1 1-2 inch, 3rd size is 1 to 1-1 inch, 4th size 3-4 to 1 inch, 5th size 1-2 to 3-4 inch, 6th size is under 1-2 inch.

Six will be sold at dozen rate, 50 at the 100 rate. At retail, one-half size bulbs will be sold at one-half regular price, but no item less than 5 cents. If price of bulb is 5 cents, two one-half size will be sent for 5 cents. If price is 10 cents, one-half size will be 5 cents and so on.

I do not substitute varieties without permission, but if out of size ordered, I sometimes use larger or smaller size but give equal or better value.

My stock is limited on some varieties and sizes, but if stock is wanted of sizes not listed, write me, as I no doubt have a few and can supply you. Also, I have small lots of some varieties not listed, some of them new or rare varieties. No confusing discounts offered as my low prices do not permit it but 5% discount is allowed on all orders from members of the American Gladiolus Society. To all others, 5% discount on orders of \$5.00 or over.

Varieties marked with a \* can be supplied in 1,000 lots of most sizes, and bulletts by the peck or bushel.

Correspondence solicited. Transportation is paid on all orders over \$3.00. Add 10% on orders for less.

While I do not guarantee the crop, I do guarantee satisfaction. You may examine the bulbs on arrival and if not satisfactory return them at once at my expense.

We have a few hundred thousand bulbs of named varieties, sizes 3 and 4, that we will sell as mixture. If interested, name your own price and tell us how many you can use. No reasonable offer refused.

## Just a Few Cultural Notes

The Gladioli are so easy to grow that they may be planted anywhere so long as they are in the sun, but will not do well in the shade. Don't try it.

Plant any time after the middle of April to the middle of June in any manner that best suits your plot of ground. Plant from 2 to 5 inches deep, the larger the bulb the deeper it should be planted. It stands up better.

Now start the cultivator. The more the soil is kept stirred when not too wet, the better it conserves the moisture and your plants will do better.

The Gladioli will take a lot of water at blooming time. If you are in a position to water them at this time, do so. If not, they will do fairly well without, by keeping the soil well stirred up.

When cutting the flowers keep as many leaves as possible on the plant to mature the bulb. Too low cutting weakens the bulb.

When digging, cut the stalk close to the bulb and dry well. When well dried and cleaned, store in cellar away from the furnace. If near to furnace, keep dish of water, near them.

The flower of the Gladiolus is the finest for vases for the sick room, hospitals, churches, cemetery and decorations of all kinds. Use them freely.

While I make no special claim for my bulbs, every year I receive many fine letters from customers who were pleased with my stock and pleased with the service rendered. We have a large stock and ship orders promptly.

Become a member of the American Gladiolus Society. It devotes its entire attention to the interests of the Gladiolus and growers of the same over the entire country. Annual dues are \$2.00, payable to the secretary, Roscoe Huff, Goshen, Ind.
